

**Strawberry Fields Interactive INC.** is looking for a full-time Project Developer

Project Title: Aeksia

Genre: VR platform for Tabletop RPG

### **WHAT IS AEKSIA?**

Aeksia is where the tabletop experience and social interaction seamlessly blend. A place where role-playing game (RPG) enthusiasts can call home and meet to create, play and watch tabletop RPG campaigns in Virtual Reality. This is RPG storytelling taken to the next level.

### **YOU ARE**

You are a highly-organized, enthusiastic Project Developer with exceptional communication skills and a demonstrable talent for project development. The act of researching and planning excites you; organization and efficiency make you squeal with glee. The ideal candidate is self-motivated, always follows-up, and enjoys working within a fast-paced, team-oriented environment.

### **Responsibilities:**

- Researching, planning, and consolidating various projects in the company
- Budgeting for projects, including staff, necessary equipment and materials
- Responsible for the overall success and vision of the project
- Recruit and help with onboarding new team members
- Lead the creation of project plans, documentation, and requirements for projects
- Collaborate with teammates who care about building great products as much as you do

### **Your Skills:**

- 4+ years of work experience in project creation roles
- Experience working in games, VR/AR or other interactive media projects from conceptualization to launch
- Ability to prioritize, organize, and execute within a high-pressure environment
- Adaptable to changing project requirements and business needs
- Ability to motivate, encourage, persuade, increase cooperation and reduce tension among team members
- Exceptional written, verbal, and interpersonal communication skills
- A strong advocate for collaboration and interdisciplinary problem-solving
- Able to synthesize and communicate the outcomes of collaborative sessions with the team
- Highly committed to excellence; constantly looks for ways to raise the bar in order to achieve excellence in all areas
- Proactive problem solver

### **Other Skills:**

- Previous game development environment experience
- Grant writing
- Bonus points for role-playing and DnD player
